UpClear

Senior SQL Developer / New York

www.UpClear.com/Company/#Section-Careers - Posting date February-2017

ABOUT UPCLEAR

UpClear is a SaaS company with a global customer base that is changing how Consumer Packaged Goods (CPG) companies manage their Trade Promotions. UpClear's BluePlanner software is a best-in-class platform for Revenue Management, covering Sales Planning, Trade Promotion Management (TPM), Analytics, and Optimization (TPO). UpClear serves clients in 20 countries across America, Europe, Asia, and Africa from its primary offices in New York, London, and Hong Kong and branches in Singapore, France, and Australia. BluePlanner has been recognized by Consumer Goods Technology as one of the leading solutions for Trade Promotion Management and won the award for Customer Satisfaction Leader in 2016. UpClear is growing at a rate of 30% per year and was recognized for the third year in a row as one of the 5000 fastest growing private companies by Inc.

JOB DESCRIPTION

UpClear is seeking a self-starting, resourceful and passionate individual with 8+ years of MS SQL Server development experience for a local contractor or permanent position. You would have strong T-SQL skills, database administration and optimization techniques, and a desire to support and enhance our SaaS platform which is utilized by our global client base.

RESPONSIBILITIES

- Developing scalable and performant database queries for new and existing features
- Analysis and improvement of existing infrastructure code
- Design and improvement of OLTP to OLAP data transformation processes
- Optimization of existing data consolidation code
- Monitoring and fine tuning databases for optimal performance
- Coding, testing, and troubleshooting features and enhancements

QUALIFICATIONS & EXPERIENCE

- At least 8 years of development experience with MS SQL Server
- Deep understanding of OLAP and OLTP
- Experience in Data Warehousing w/ Star Schema
- Experience in designing Data Integration
- Excellent written and verbal communication
- Good time-management skills and ability to prioritize work with geographically dispersed teams
- Applicants must be authorized to work in the US

NICE TO HAVE

- Experience with big data and CPG
- Experience in a SaaS environment
- Experience in alternative database languages
- Experience with external reporting solutions (SSRS/Tableau)
- Experience implementing agile/scrum methodologies

Why UpClear?

- Develop SaaS consulting and implementation experience and expertise in the CPG / Retail industry.
- Opportunities to grow within technical and other areas such as strategy, marketing, and sales activities.
- Get on the ground floor of a startup-like company that already has a global reach.

If you wish to apply, please send a resume to recruitment@upclear.com, with "p201702.US.SSD" in the subject. Cover letter recommended but not required.
